PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with 3+ years of experience specializing in React, Next.js, and TypeScript. Proven expertise in architecting configuration-driven SaaS, multi-tenant enterprise platforms, and scalable component systems. Skilled in translating Figma designs into production-ready UI, implementing secure RBAC, and delivering high-performance, data-heavy dashboards.

TECHNICAL SKILLS

- **Core Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Node.js
- **Frameworks & Libraries:** React.js, Next.js (App Router), Redux Toolkit, TanStack React Query, Context API
- **Architecture & Patterns:** Micro-Frontends, Nx Monorepo, Module Federation, Configuration-driven systems, Dynamic form engines
- **Styling & UI:** Tailwind CSS, SASS, CSS-in-JS, Material-UI (MUI), Radix UI, Responsive Design, Web Accessibility
- **Forms & Validation:** React Hook Form, Formik, Zod
- **APIs & Databases:** REST APIs, GraphQL, Axios, Prisma ORM, PostgreSQL
- **Security & Auth:** NextAuth.js, RBAC, Protected Routes, OTP Flows, JWT
- **Tools & Methodologies:** Jest, React Testing Library, Storybook, Git, GitHub, Jira, ClickUp, Trello, Figma, Agile/Scrum

PROFESSIONAL EXPERIENCE

Frontend Developer — ComplyMarket ([ComplyMarket.cloud](#))

May 2025 – Present | On-site, Egypt

- Developed enterprise SaaS compliance platform covering 20+ specialized modules (Bill of Materials, Reporting, Questionnaires, Trade Compliance), supporting 25 companies / 235 active users.
- Architected a unified, configuration-driven questionnaire engine used across 12+ modules, eliminating redundant module-specific logic and cutting new-module development time by 80%.
- Built GenericRequirements Table, a single reusable component handling 4 different requirement types via clean props, reducing related code volume by 60%.
- Designed UI layouts in Figma for compliance workflows, bridging design and frontend implementation.
- Implemented secure RBAC permission systems, role-aware UI rendering, and protected routes across all modules.
- Developed a Reporting Control Dashboard enabling Super Admins to manage per-company access limits and usage quotas for 25 client companies.

Frontend Developer — Smartivemedia

Jan 2024 – Apr 2025 | Remote, Full-time

- Built multi-tenant e-commerce SaaS platforms with shared merchant dashboards, subdomain storefronts, and i18n support.
- Led core modules: Branches, Language, Permissions, Email Notifications, and Design System.
- Engineered complex product management flows (simple, variant/option-based, food products), managing deeply nested form structures using React Hook Form and Zod.
- Implemented secure authentication and OTP verification workflows to streamline user onboarding.
- Utilized React, Redux Toolkit, React Query, Tailwind CSS, MUI, and Axios within a shared component architecture.

KEY PROJECTS

PeopleFlow – Multi-Tenant HR & Workforce Management Platform (Next.js, Node.js, Prisma, PostgreSQL, NextAuth)

- Built a full-stack platform end-to-end supporting company structures, employee hierarchies, attendance tracking, and leave management workflows.
- Designed relational PostgreSQL schemas via Prisma ORM and developed scalable REST APIs using Node.js.

- Implemented robust authentication with NextAuth, JWT refresh tokens, and strict RBAC for multiple user roles.
- [GitHub repo \(Frontend\)](#) / [GitHub repo \(Backend\)](#) / [Live demo](#)

Rose – E-commerce Website & Admin Dashboard *(Next.js, TypeScript, NextAuth, RBAC)*

- Developed a full-featured e-commerce storefront, including a complete authentication flow, product listings, cart, checkout, and address management, alongside an isolated admin dashboard for managing products, categories, and orders.
- [GitHub repo](#) / [Live demo](#)

Vive Healthy Snacks – Full-Stack E-commerce *(Next.js, Prisma ORM, PostgreSQL, Resend)*

- Architected a custom responsive e-commerce application end-to-end, covering UI/UX design, frontend, and backend, and integrating product management workflows and relational database design.
- Integrated automated order-confirmation emails via Resend, notifying the store owner as soon as a customer places an order.
- [GitHub repo](#) / [Live demo](#)

LICENSES & CERTIFICATIONS

Online Career Directions Program

Education For Employment – Global (EFE-Global) | March 2025

45-Hour Training Program & Final Startup Project

InnovEgypt | October 2023

Professional Program in Front-End Web Development

Udacity | Jan – Mar 2022

Skills: HTML5, CSS3, and additional front-end fundamentals

EDUCATION & LANGUAGES

Bachelor's Degree in Computer & Information Systems (IT Specialization)

Alexandria University, KMA Academy | Graduated 2022

Languages: Arabic (Native) | English (Professional Working Proficiency)
